

MEGAPOWER LEGRAND (M) SDN BHD
MEGAPOWER MANUFACTURING (M) SDN BHD

ENVIRONMENTAL POLICY

MPL manufactures electrical cable management systems and wiring accessories, is fully committed to conducting its business in an environmentally responsible manner that will fulfill its responsibility as a leading corporate citizen in the community in which it operates. All our activities and processes are carried out in accordance with the relevant environmental statutory provisions and practices.

The management & employees are committed to an effective Environmental Management System (EMS) developed in line with ISO 14001 that will help MPL accomplish its business objectives. To continually improve its EMS & environmental performance, MPL shall:-

- Commit to comply with applicable legal environmental regulations and other requirements to which MPL subscribes;
- Commit to the prevention of pollution, conservation of natural resources, reduction of waste and promotion of recycling;
- Actively promote an environment conscious culture throughout our workforce, suppliers and contractors;
- Regularly assess and review our environmental aspects & impacts;
- Setting and review of MPL's environmental objectives and targets;
- Communicate all pertinent environmental issues to employees.

The policy is communicated to all persons working under MPL's control and made available to interested parties upon request.
